

Model **VDO MC 1.0** and **VDO MC 1.0+**

DATA SHEET

MODEL	Code	FUNCTIONS AND FEATURES
VDO MC 1.0 (wired)	2031	<p>Cycling functions</p> <ol style="list-style-type: none"> 1. current speed (up to 125 km/h) 2. trip counter (up to 999,99 KM) 3. trip ride timer (up to 19:59:59 HH:MM:SS) 4. average speed (2 decimals) 5. maximum speed (up to 125 km/h) 6. clock (12 or 24 hour) 7. manual stopwatch (up to 19:59:59 HH:MM:SS) 8. Navigator – second programmable trip distance counter up to 999,99 KM) 9. total odometer (up to 199.999 KM) 10. total odometer bike 1 (up to 99.999 KM) 11. total odometer bike 2 (up to 99.999 KM) 12. comparison of current and average speed 13. 2 wheel sizes (bikes) selectable <p>Altimeter Functions</p> <ol style="list-style-type: none"> 1. Actual altitude in meters or feet, permanently in display 2. Actual temperature in °C or °F, permanently in display 3. Actual climbing percentage in %, permanently in display 4. Summary of ridden uphill altimeters (gain in altitude) on current trip 5. Maximum altitude on current trip 6. Average climbing percentage on current trip 7. Maximum climbing in percent on current trip 8. Summary of ridden uphill altimeters (gain in altitude) on all trips, separate memories for bike 1 and bike 2 9. Maximum ever reached altitude on all trips, separate memories for bike 1 and bike 2 10. settable home altitude 11. recalibration function (adjust airpressure to home altitude setting) 12. settable actual altitude during a trip (to adjust influence of weather-change during a trip)
VDO MC 1.0+ (analogue wireless)	2030	<p>Functions as described in model MC 1.0:</p> <ul style="list-style-type: none"> • analogue wireless transmission of speed • transmitting distance ca. 70 cm • Battery in transmitter 12 V
		<p>further features MC 1.0 and MC 1.0+:</p> <ul style="list-style-type: none"> • Language selection for text in display, 7 languages selectable • Service-Interval-Indicator, computer shows, when bike should be given to inspection to cycle retailer. • Support during set-up procedure, what-to-do-text is shown in display • 3-line display with permanent display of speed, altitude, temperature, actual climbing percentage plus additional selected cycle computer or altimeter-function. • Auto/Start-Stop of all functions • Automatic transfer-calculation from KM to miles and vice versa • Sleep mode / battery saver, only clock in display, if not in use • TWIST-CLICK-handlebar mount, easy no-tool mounting • 3 button operated, button for actual cycling information, button for stored cycling information, button for altimeter information • Total distance re-settable after change of battery • Selectable KMH/MPH/Meter/Foot/Celsius/Fahrenheit-display
