Docking Station
Declaration of Conformity/FCC/IC Statement

DE

Batterien dürfen nicht im Hausmüll entsorgt werden (Batteriegesetz – BattG)!
Bitte geben Sie die Batterien an einer benannten Übergabestelle zur Entsorgung ab.

EU-Konformitätserklärung
Hiermit erklärt CYCLE PARTS GmbH, dass sich die Docking Station für VDO M6.1 in Übereinstimmung mit den grundlegenden Anforderungen und den anderen relevanten Vorschriften der Richtlinie 2014/30/EU befindet.

EN
In case of an Electrostatic Discharge, the data transfer between Docking Station and computer may be stopped/lost. In this case, please unplug the Docking Station from PC and plug in again after a few seconds of waiting time. This will restart the data transfer process.

All electrical and electronic products including batteries should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.

EU-Declaration of Conformity
CYCLE PARTS GmbH hereby declares that the Docking Station for VDO M6.1 comply with the fundamental requirements and other relevant regulations of Directive 2014/30/EU.
FCC-Statement:
This device complies with Part 15 of the FCC Rules.
Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

The grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user’s authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
